Greetings

SHINSUN EVERY is a company dedicated to enhancing the value of agriculture and creating a better tomorrow.

SHINSUN EVERY is an agricultural company specializing in discovering high-quality agricultural products and agricultural materials, while connecting domestic and international markets.
We believe that agriculture is one of the industries closest to our daily lives and serves as an essential foundation for providing healthy food and creating a sustainable future.
Based on these values, SHINSUN EVERY connects agricultural fields with markets through the import and export and domestic distribution of fertilizers and agricultural materials, as well as the distribution and export of high-quality agricultural products.
We listen carefully to the voices of farmers and the agricultural industry, while placing quality and trust at the heart of everything we do. We are committed to continuously growing together with our customers and building long-lasting relationships based on mutual trust.
Moving forward, SHINSUN EVERY will continue to keep pace with the changing agricultural environment by actively discovering new products and opportunities. We will strive to grow as a company that contributes to the development of agriculture and creates a better future for our customers.
We will always do our best to live up to your interest and support.
Thank you.

Nectarine

Grapes

Jujube

PROCESSED FOOD

Agricultural Produce
(Vegetables)

Kuemsil Strawberries
딸기(품종:금실)

Kuemsil Strawberries, a hybrid of Korean varieties, Maehyang and Seolhyang, taste very sweet and have hard pulps, which causes a good firm yet juicy texture. They have a long shelf life. When ripen, they smell like peaches and have rich and sweet flavor.

OutPut : 25t
Shipping Period : Nov.~Apr.
Place of Production : Goseong-gun, Gyeongsangnam-do, Korea

Chung-Yang red pepper
청양고추

Chung Yang pepper, a Korean-developed variety of pepper, is famous for its strong savory spice in Korea . It is mainly used to produce refreshing and sharp spice in cooking. Usually, its unique spice tastes quick and lasts long.

OutPut : 150 t
Shipping Period : Oct.~June
Place of Production : Jinju, Gyeongsangnam-do, Korea

Agricultural Produce
(Vegetables)

Paprika
파프리카

Paprika contains a lot of nutrients that have antioxidant activity and is abundant in Carotenoid such as alpha- carotene, or beta-carotene, let alone vitamin C and E. It is considered one of the highly nutritious ingredients, as it contains more vitamin C than lemon and has various minerals such as potassium, etc.

OutPut :100t
Shipping Period : Nov.~June
Place of Production : Jinju, Gyeongsangnam-do, Korea

Zucchini
애호박

Zucchini, which is high in carbohydrates and has abundant vitamin A and C, is often used in nourishing meals for hospital patients and as baby food, thanks to its good digestive absorption. The ingredient in the zucchini seeds is good for brain health and dementia prevention.

OutPut : 100t
Shipping Period : Oct.~May
Place of Production : Jinju, Gyeongsangnam-do, Korea

Agricultural Produce
[Fruits]

Nectarine
천도복숭아

Compared to the ordinary peaches, Nectarine has a hard pulp, is crunchy and tastes rather sour and sweet than just sweet.

Variety : Shinseon, sinbi, sunfred
Shipping Period : June~July
Place of Production : Gyeongsan-si, Gyeongsangbuk-do, Korea

(MBA)/Grapes
포도

MBA Grapes are black-colored and taste sour and sweet, so are widely used as an ingredient of wine.

Variety : MBA
Shipping Period : Oct.
Place of Production : Gyeongsan-si, Gyeongsangbuk-do, Korea

Jujube
대추

Jujube, which is excellent in both taste and nutritional value, is eaten raw in autumn, the harvest season, and dry all year round, as an herbal medicine or a food ingredient.

Shipping Period : (Raw)Sep. (Dried)Jan.~Dec.
Place of Production : Gyeongsan-si, Gyeongsangbuk-do, Korea
